

The February 8, 2022 Election

OneForCoweta.com

Public Meetings Project Map More Info

On Feb. 8th, Coweta voters will consider an important ballot proposition to create a dedicated source of revenue for public safety, roads, drainage, parks, and other necessary infrastructure. The One for Coweta one penny sales tax is projected to generate approximately \$1.3 million a year for these important initiatives based on current retail sales within the city.

If approved by voters, the One for Coweta funds can only be used in the ways specified on the ballot - meaning the funds will be legally restricted to these key areas already identified by the City Council.

DID YOU KNOW?

Coweta's operating budget is almost entirely composed of local sales tax.

Improve Coweta's Existing Infrastructure

- Create additional lanes and/or add shoulders to existing roads at 111th St, 273rd E Ave, 141st St S, and 305th E Ave
- Conduct a Master Drainage study to identify areas and methods for improvements to storm water drainage and retention
- Improve storm water management and drainage throughout the downtown area, plus 121st St S, 141st St S, 111th St S, 273rd E Ave, and 305th E Ave
- Improve Coweta Sports Park and fund additional park improvements or park space in the City

Better roadways benefit everyone, including the police officers and firefighters who have to use them in emergency situations or during everyday patrols.

Improve Our Public Safety Facilities

The current police station was built in 1940, and the fire station added on in 1985. Today, it suffers from severe water leaks, making it a safety risk to the dozens of men and women who work and, in the case of firefighters, live there. One for Coweta would create a funding source to build new, modern police and fire facilities to better serve the citizens of Coweta.

As the City grows, we need to have public safety facilities in other parts of the community. The City owns land in the northern part of the city and this funding source would mean both a vastly improved, expanded existing facility **and** a new fire station in the northern part of Coweta.

DID YOU KNOW?

The current station does not have room for any additional firefighters.

DID YOU KNOW?

Oklahoma cities, including Coweta, are NOT funded by property (ad valorem) taxes.

Public Safety Facility today

DID YOU KNOW?

Shopping outside of Coweta funds another city's budget, improving **their** roads, parks, and other infrastructure.

Improve Coweta City Parks

The Coweta Sports Park needs updates to improve the usability of the park.

One for Coweta would create funds to:

- Fix drainage issues in the park
- Add lighting to the fields
- Pave gravel parking lots
- Make park more handicap accessible
- Fund additional parks and other park improvements over time

DID YOU KNOW?

Taxes approved by the voters must be used for their stated purpose unless the voters approve a change.

**Make your voice heard:
Vote on Feb. 8th in the
One for Coweta
sales tax election**

DID YOU KNOW?

Roadway improvements, from filling potholes to new lane construction, are funded almost entirely through local sales tax.
